HANGZHOU EUPRUN MEDICAL INSTRUMENT CO.,LTD.

Committed to the best raw material, committed to you.

HANGZHOU EUPRUN MEDICAL INSTRUMENT CO.,LTD.

欧创
EUPRUN MEDICAL

Committed to the best raw material, committed to you.

Hangzhou Euprun Medical Instrument Co.,Ltd is located in the beautiful Fuchun River-Tonglu. Thefactory covers an area of 12000squaremeters. And it is a new andnationalhigh-tech enterprise integratedresearch, development andmarketing of medical en doscopic surgical instruments. The companyhas ob- tained the certification of ISO9001 and ISO13485 Medical Device Quality Management System.

The company is committed to brand marketing, and adheres to th e road of specialization,industrialization and large-scale and conforms industry superiority. Currently, thecompanyhas a good reputation and visibility in the same field and among the customers. Meanwhile, the companyis the best of the best in the field of minimallyinvasive surgical instruments.

In the management team, 80% members hold college diplo ma or above. And 90% front-line workers or more hadieceived pr ofession al training. Additionally, their abilities had been strength- ened an d improved in the actual operation. At present, the com- pany had formed a team with professional management, resear ch, development and marketing and excellent after-sale service.

The company bases on the enterprise spirit of "work together be better" an d follows the tenet "Quality is life, the users are fa- milies". Besides,the companywho depends on its strong produ ction capacity, good brandimage and steady management m echanism will provide more perfect, excellent and effective serv- ice for customers and finally achieves its mission "Only for peopl e's health".

Detachable Picture of Instruments

Assembly Instructions Applicable to Table 1

1. Press button 1, keep handle left part still, and pull the right part 2 till button 1 hidden inside.
2. Slide insert into handle, notice the tongue and groove configuration. The insert should snap firmly into the shaft.
3 Close handle part 2, till you hear a "click" sound, make sure the insert fits the handle completely.

Disassembly Instructions Applicable to Table 1

1 Press button 1, keep handle left part still, and pull the right part 2 till button 1 hidden inside.
2 Keep pulling 2, till the insert slide out of the handle.
3 Pull out of the insert from the handle.

Assembly Instructions Applicable to Table 2

1 Plug in insert into shaft, keep insert upside and make sure it fits shaft slot perfectly, rotate it clockwise and keep the jaw close.
2 Pull handle 2 part to it' s MAX position.
3 Insert shaft into handle till the end of insert touches the handle.
4 Close handle slightly till you hear a "click" sound.

Disassembly Instructions Applicable to Table 2

1 Press "PRESS" button , keep handle left part still, and pull the right part 2.
2 Keep pulling 2, till the insert slide out of the handle.
3. Keep jaws open and upside, rotate counterclockwise, and slide insert from the shaft.

807.017.2 two toothed grasping forceps Φ10×420mm

807.018 grasping forceps Φ5×420mm

807.019 uterine manipulator

807.023 cervical forceps (straight shape)

807.023.1 cervical forceps (bending shape)

807.036 electric motor core
(MAX motor-Switzerland)

807.037 electric motor cable

807.025 electric motors handle

Power cord

807.024 controller(LCD display)

OC-807.1 Morcellator

807.017 grasping forceps Φ10×420mm

807.002 uterus resector Φ15×330mm

807.002 uterus resector Φ15×330mm

801.027 needle Φ5×330mm

807.013 guide rods Φ10×370mm

807.029 knot pusher Φ5×330mm

807.008 pull rod(probe) Φ5×420mm

801.020 myoma drill Φ5×420mm

807.014 reducer Φ15-Φ10mm

807.014 reducer Φ15-Φ10mm

807.011 dilator Φ15

807.009 trocar cannula Φ15×95mm

801.009 trocar Φ15×95mm

807.036 electric motor core
(MAX motor Switzerland)

807.037 electric motor cable

807.025 electric motors handle

Power cord

807.024 controller(LCD display)

Sterilization Case

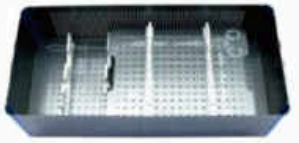

110F.032 for lap instrument
525×300×155mm

110F.033 for Electric morcellator
540×250×135mm

110F.030 for surgery instruments
540×230×70mm

110F.031 for surgery instruments
550×250×100mm

110F.041 for sinuscope
270×84×42mm

110F.034 for resectoscope
430×280×90mm

110F.040 for laparoscope
425×84×42mm

Medical Equipment

JRL-II LED light source (high luminosity)

JRQ-1 CO2 insufflator

JRG-II(A) Irrigation Pump

815.021 Laparoscopic simulator

815.004 light cable Φ4×1800mm

816.003 Endoscopy pump (medical pressurizer)

Flushing pump (instrument cleaning machine)

Medical Equipment

1CCD Endoscopy Tower/Rack

display 17" 、19" LCD

DVD burner
Endoscopic interface
DVD burner
Computer host Fangzheng or Lenovo
Printer Hp6000 color spray
Foot switch
High-grade aluminum alloy multifunctional trolley
Laparoscope special software

3CCD Endoscopy Tower/Rack

display 17" 、19" LCD

DVD burner
Endoscopic interface
DVD burner
Computer host Fangzheng or Lenovo
Printer Hp6000 color spray
Foot switch
High-grade aluminum alloy multifunctional trolley
Laparoscope special software

Digital high definition image workstation
display 22" LCD

DVD burner
Endoscopic interface
DVD burner
Computer host DELLiS-2400
Printer Hp6000 color spray
Foot switch
High-grade aluminum alloy multifunctional trolley
Laparoscope special software
